Public Affairs and Management

Major	Public Affairs and Management 公共事務與管理
Degree / Award Title	Bachelor of Social Sciences in Public Affairs and Management 社會科學學士(公共事務與管理)
Offering Academic Unit	Department of Public and International Affairs
Mode of Study	Full-time

Aims of Major

The major aims to ……

1. provide students with a comprehensive education in the common core theories, concepts, and knowledge bases of public policy, public management, and political science.

2. enable students to specialize in public policy, public management, or political science for gaining an understanding of the essential theories, principles, dynamics, and analytic approaches of these bodies of knowledge.

3. equip students with the theoretical, conceptual, and analytical tools to understand comprehensively public policy, public management, and political developments in Hong Kong, China, and the contemporary global world.

4. produce graduates who can meet effectively the human resources needs of a wide range of public and private sector employers in administrative, management, and policy and political analysis positions, as well as in the media and non-governmental organizations.

Intended Learning Outcomes of Major (MILOs)

Upon successful completion of this major, students should be able to:

1. Understand and analyze issues in public affairs and public management at the local, international, and global levels.

2. Discover new challenges and possible solutions facing Hong Kong and/or the world within the broad spheres of political studies, public policy, and public management.

3. Apply communication and leadership skills as they relate to public policy, management, and politics.

4. Develop the intellectual and analytical competence required for effective performance and life- long learning in a range of public- and private-sector careers related to policy studies, public management, and public affairs.

5. Evaluate critically the ethical issues in public policy, management and politics for creating new ideas.

Degree Requirements

Requirements	Normative 4-year Degree	Advanced Standing I[1]	Advanced Standing II[2]

Major requirement	Foundation-year courses @: 15credit units	Foundation-year courses@: 0 credit units	Foundation-year courses@: 0 credit units
	Public Affairs and Governance Stream: Core courses: 33; Stream elective courses: 15 Public Policy and Management Stream: Core courses: 33; Stream elective courses: 15		
Free electives / Minor (if applicable)	21 credit units	15 credit units	0 credit unit
Minimum Graduation Requirement:	**121 credit units**	**91 credit units**	**60 credit units**
Maximum Credit Units Permitted:	**144 credit units**	**114 credit units**	**84 credit units**

Notes:

1. * For details, please refer to the Curriculum Information Record for Common Requirements.

2. # Normative 4-year degree students or Advanced Standing I students of 2025 entry and thereafter, who transitioned from other Colleges/Schools to the Major, will be required to adopt the new PIA College Requirement (Language Component) framework, while students changing their home major from another academic unit within CLASS to PIA will follow the existing College Requirement framework. If students change their home major from PIA to other academic units within CLASS and have not fully completed the new College Requirement (Language Component) framework, they should follow the existing College Requirement framework. If these students have only completed a language course of the new College Requirement framework, that course will be considered a free elective.

3. ^ Students opting for the Computational Language Component will be required to take PIA2601 Computational Language Course I and PIA2602 Computational Language Course II. PIA2601 Computational Language Course I is the prerequisite course for PIA2602 Computational Language Course II.

4. + Students opting for the Foreign Language component should complete this requirement by taking only one foreign language (other than Chinese and English), rather than enrolling in two different languages

5. @ Students of second major and students changed to the Major will follow the Advanced Standing I curriculum (only applicable to normative 4-year degree students and students admitted with Advanced Standing I). ASI and ASII students will be exempted from the Foundation-year courses.
